Adobe Media Encoder is an application designed to encode, convert, and export video and audio files in a variety of formats and settings. Widely used by video editors and film professionals, it is essential for processing projects from Adobe Premiere Pro, After Effects, or Audition.

Media Encoder allows exporting files in multiple formats, such as H.264, HEVC, MPEG-2, QuickTime, and more, optimized for different platforms like YouTube, Vimeo, social networks, television, and mobile devices.

This product includes a license linked to your personal user account. Valid for three months, for one PC per license.

Compatibility:

Adobe Media Encoder Requirements:

Operating System:

- Windows 10 or later (64-bit versions only).
- macOS 11 (Big Sur) or later.

Processor:

- Minimum: Intel or AMD multi-core processor with 64-bit support.
