### Description

AVG Ultimate is an exceptionally good antivirus that provides excellent protection for multiple devices. Thanks to its robust security tools, it offers strong protection without slowing down your system. Its firewall delivers enhanced protection against ransomware.

AVG prevents any suspicious activity and traffic from reaching your computer or device. The scanner is always active, monitoring any changes you make to files and folders, ensuring that no significant issues interrupt your activities or result in the loss of your information on the computer.

It also prevents you from visiting dark websites and following dangerous links on other networks, as you could be at risk of encountering harmful or malicious viruses. Similarly, it detects and eliminates them. AVG Ultimate can be used on up to 10 computers, but it is valid for one year.
