Description

This version supports Windows Server and centralized management. It features SQL/Exchange restoration. Clone, update, or transfer your files easily with EaseUS Todo Backup Technician. With this software, you can back up all the data and settings from a partition or all the partitions on the hard drive, so you don't have to worry about data corruption on your company's devices. It provides tools for backing up Windows Server and PXE network boot. It supports disk cloning and OS migration to SSD/HDD. This version comes with technical support and unlimited reinstallation on different devices.

Recommended for:

Businesses, technicians, or professionals who need to protect their server data and then restore their files instantly (backup must be done with the same program). If you need a version for single use or shorter duration, for a lower cost, visit our one-month and two-year versions.

Compatibility and operating systems:

Supported operating system:

Supports Windows Server.
