Description

Transfer programs, settings, and files to a new PC or from one server to another with Easeus Todo PCTrans Technician. You can create a comprehensive backup of your files, recover data from a damaged computer, and migrate your user accounts to a new system. This allows you to work on your new device immediately, without the need to redo the settings from the old one. It is valid for any Windows and any computer. This version enables you to transfer settings from one server to another, in addition to your files.

Recommended for:

Businesses or technicians who need to transfer all the information from an old server to a new one quickly and effectively, with unlimited data and program transfers, or recover files from a damaged server.
