#### Description

**McAfee Internet Security** is one of the most comprehensive antivirus solutions available, ideal for protecting your devices from all harmful threats on the internet. It enables a thorough analysis of your system, offering fast, complete, and customized scanning. McAfee Internet Security comes with a suite of features designed to keep your computer free from viruses, worms, trojans, and other malicious programs.

**McAfee Internet Security** spans a wide range of devices, including desktop and laptop computers, as well as smartphones and tablets (Android only). This program stands out for its comprehensiveness: it provides protection against spyware (antimalware); protection against phishing, one of the most dangerous and insidious threats currently on the internet; and protection against unsolicited mail.

**McAfee Internet Security** delivers a sophisticated layer of real-time protection without interfering with your online experience. This license has the advantage of being usable on 3 computers, but it is valid for one year only. Delivery is carried out via email, and it does not include an installation disk. It can be used to upgrade from the free edition to the full edition.
