Description

Access is an Office program commonly used for reading and editing databases. This software is available both as part of a bundle and as a standalone product. Some individuals purchase lighter versions of Office (such as the Home and Student or Home and Business versions) that do not include Access. Therefore, acquiring this license allows you to install Access separately, in a manner similar to how Visio and Project programs are handled.

This version of Access is only compatible with [Office 2019](#). If you have [Office 2016](#) without Access, you will need to purchase the [Office 2016](#) version that includes it.

Alternatively, you may also choose to purchase [Office 2019 Professional Plus](#), which does include Access.

Recommended for:

- Individuals who have already paid for an Office subscription or license but do not have Access.
- Individuals who only require Access and no other programs.

Compatibility and Operating Systems:

Access 2019 is only compatible with [Windows 10](#) and will not work on any other operating system. If you have [Windows 7](#), [8](#), or [8.1](#), consider purchasing [Office 365](#) or [Office 2016](#), which include Access.

Product Installation:

If you already have Office, you can install Access alongside your existing Office suite; it installs as a separate program.

Product Delivery:

This product is provided as a 25-digit digital license code. After making your payment, an email will be sent to you containing the activation code and instructions. The email will include a manual to guide you through the installation process easily, using the official system provided by the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support.
