Description

Windows 10 Pro N is the "European" version of Windows that, for legal reasons, does not include certain features that are present in the standard version of Windows 10.

Computers sold with this version pre-installed are not uncommon. This license enables the activation of those devices, as the standard activation codes do not work on Windows 10 Pro N.

Recommended for:

- Individuals who have the "N" version of Windows and need to activate the operating system.

Compatibility:

Windows 10 Pro N is compatible with both 64-bit and 32-bit systems.

Windows 10 Pro N is activated digitally on the official activation server. This means you can erase your hard drive or change it, and the license will remain on your PC.

It only works on [Windows 11 Pro "N"](#), and does not activate the standard [Windows 11 Pro](#).

Product Delivery:

This product is provided as a 25-digit digital license code. After making your payment, an email will be sent to you containing the activation code and instructions. The email will include a manual to guide you through the installation process easily, using the official system provided by the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support.
