Description

Windows 11 is the latest version of Windows, featuring several improvements over [Windows 10](#), particularly in terms of appearance and usability, giving it a more modern look. It also supports running Android apps within Windows.

Purchasing the license will allow you to receive the latest updates and protect against viruses or hacking attempts. Furthermore, it removes the annoying "Activate Windows" message.

Recommended for:

- Individuals purchasing a new PC who want to install the most modern system.
- Users who see the "Activate Windows" message in the bottom right corner of their screen.
- Businesses currently using the "Home" version and wishing to upgrade to a Windows version without usage limitations.
- Advanced users who require tools available only in the Pro version.
- People or companies wanting to upgrade their old Windows to a more modern version.

Why Activate Windows?

Activating Windows offers a wide range of benefits, such as:

- Access to the latest updates and software features.
- Protection against viruses.
- Some programs require an activated version of Windows to run.
- Automatic download of drivers and system files.
- Prevention of viruses, trojans, or spyware that may come with cracks or activators.

Compatibility:

Windows 11 Pro is only compatible with 64-bit CPUs; computers with 32-bit CPUs cannot install Windows 11.

It can be installed on older computers, but this may be challenging since it is designed to operate solely on modern systems.

Windows 11 Pro is activated digitally on the official activation server. This means you can erase your hard drive or change it, and the license will remain on your PC.

Product Delivery:

This product is provided as a 25-digit digital license code. After making your payment, an email will be sent to you containing the activation code and instructions. The email will include a manual to guide you through the installation process easily, using the official system provided by the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support.
